How the Hue system works

Hue outdoor lamps

A collection of lamps specially designed to use outdoors, in all weather conditions.

Hue Bridge

The Bridge is the heart of your Philips Hue system and connects you smart device to your Philips Hue outdoor lights.

Hue controls

Control your lights from your smartphone or tablet via the Philips Hue app or add the switches to your system to change your lights. Philips Hue even works with different voice control devices.

PHILIPS

Enrich your outdoor space

Indulge your imagination and let Philips Hue make your outdoor space look its very best. You can adjust the ambiance to any occasion; a big party, an intimate dinner or a moment of relaxation on a late summer evening.

Feel welcomed home

Set your lights to greet you as you come home. Philips Hue automatically lights up your front yard and driveway when you arrive. Forgot to switch the lights off when leaving? Hue will take care of it. And when you're out, you can use your lights to make others think you're still home. Philips Hue gives you peace of mind whether you're home or away.
