

Easy Living  
**Handleless furniture with solutions from Hettich**

Technik für Möbel

  
**Hettich**

Fascinated by solutions.  
We call it

# Fascin[action]

Feel style

“Hey guys, fancy a whistle-stop tour through the world of handleless furniture design? I’ll be showing you how to spot great handleless design.”  
And if you want to find out more, go to <https://www.hettich.com/Easy-Living>.”

A modern kitchen with black handleless cabinets. The cabinets are sleek and minimalist, featuring built-in appliances like a coffee machine and an oven. A floor lamp with a square shade stands to the right, casting a warm glow. The floor is made of light-colored wood with a herringbone pattern. The overall aesthetic is clean and contemporary.

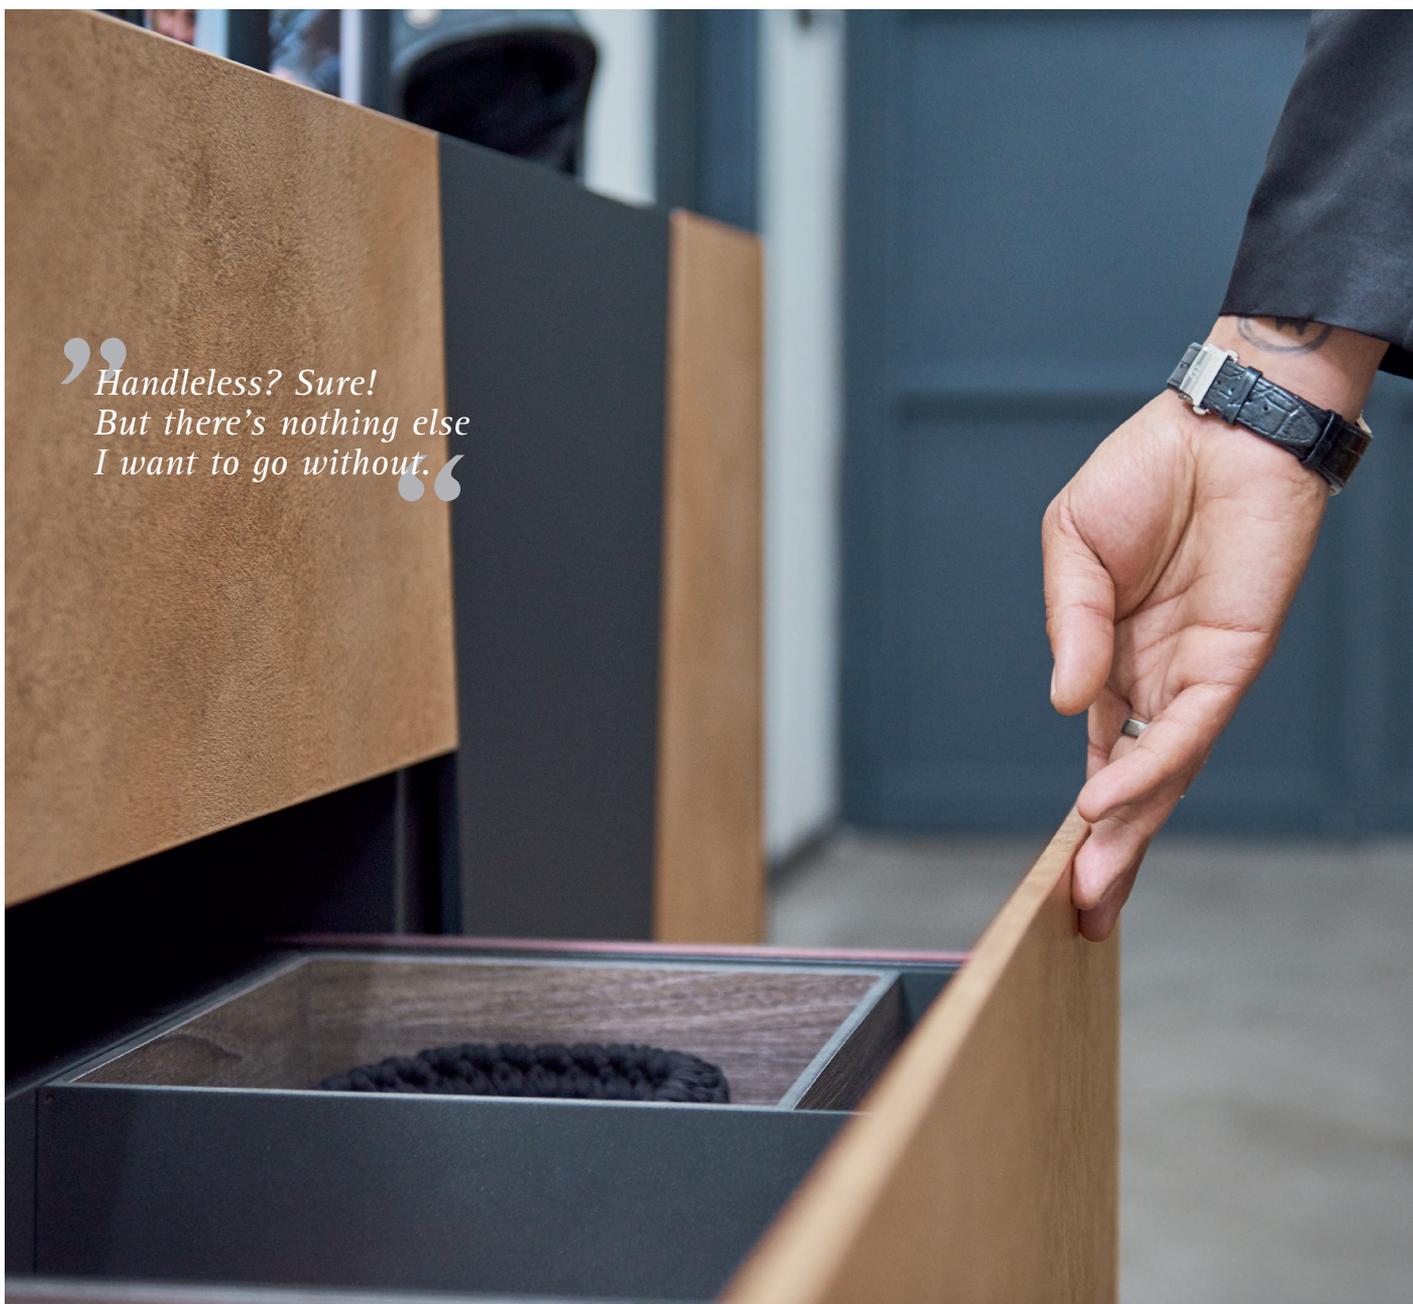

# HANDLELESS PERFECTION

Welcome to Easy Living. This collection showcases handleless cabinet solutions using Hettich technology and design for drawers, doors and cupboards in all areas around the home.

Handleless furniture design conveys a clean, light and airy look. A sensuous experience that only becomes perfect with convenient handling. Easy, reliable opening. Closing convenience.

# DESIGN WITH PRACTICAL CONVENIENCE

”*Handleless? Sure!  
But there’s nothing else  
I want to go without.*“

## **DRAWER SYSTEMS AND DRAWER RUNNERS**

### **Push to open Silent for drawers**

- Open drawers with effortless ease and close them gently and quietly, with Push to Open Silent
- Works almost like an electrical system, but it's all mechanical
- Easily clips into place opening system combined with Silent System
- Drawer energy storage system assists slow closing cycle and can still be manually closed or pulled open
- Reliable activation from recommended synchronisation bar

# FURNITURE DESIGN BIG ON STYLE

## **DRAWER SYSTEMS AND DRAWER RUNNERS**

### **Quadro full extension runners with Push to open and synchronisation**

- Opening perfection for several drawers behind one front panel
- Not only no handles, but no reveals either
- Reliable opening of handleless and wooden drawers
- Runners with factory integrated Push to open mechanism
- Easy clip in synchronisation bars provide a reliable opening function

# SIMPLE, HANDLELESS, GOOD

*“Intelligent drawers?  
Yes, please! If I just happen  
to lean against the drawers,  
the electro-mechanical system  
realises I am and keeps the  
drawers closed. Now, that’s what  
I call high-end furniture design!”*

## **DRAWER SYSTEMS AND DRAWER RUNNERS**

### **Easys electromechanical opening system for drawers**

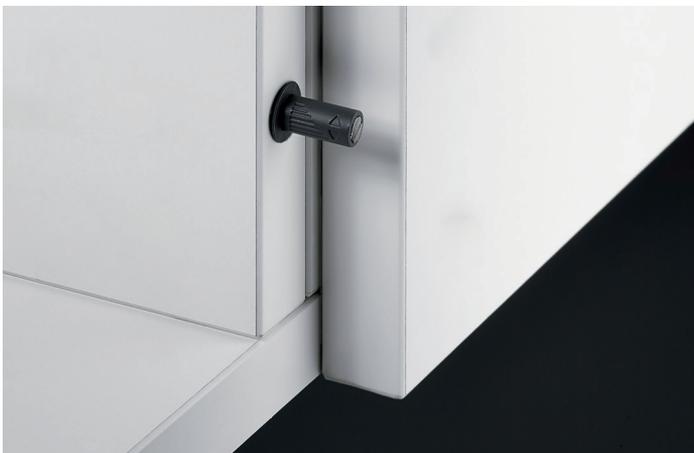

- The intelligent electromechanical system opening and closing across all drawer sizes
- Allows design purity with a light and airy look
- Intelligent opening system without any need of programming
- Synchronisation of units and optional external sensors for function of wide and heavy drawers
- Collision guard protects drawers in kitchen corner situations
- Drawers stay closed if the front is lent on for a time

DESIGN TO  
FALL IN LOVE WITH

*“Being able to open up cabinet doors without handles in this laid back way impresses my mates too.”*

## **HINGES**

### **Push to Open for Doors**

- A light push is all it takes and hinged doors open with ease and gently closes again
- Involving no cables, it can easily be added to all common cabinet constructions
- Effortlessly opens hinged doors with a light press
- For full and half overlay as well as inset doors and angled applications
- Easy to install at any time for handleless convenience

*“For the perfect stripped-back look in the kitchen, even the fridge has to be handleless. The door opens with a single push. Suits my tastes down to a T!”*

# THE LAST WORD IN CREATIVE FLEXIBILITY

## WHITE GOODS

### Easys for Refrigerators

- Easys for refrigerators reliably opens the combination of appliance door and cabinet body door
- With an installed height of only 22 mm, it's the slimmest system on the market
- Stay open time can be infinitely varied between 4 and 8 seconds for maximum user convenience
- The control system reliably prevents any unintentional opening
- Push out rod is designed without a magnet and harbours no risk for fingers

# IMPRESSIVE PANORAMA EFFECTS

## FOLDING DOOR SYSTEMS

### WingLine L with Push to Move

- Top class flush fitted design showcasing over 6 m<sup>2</sup> of space
- Push to move drives folding doors quietly and gently into the open position
- Maximum door wing width 600 mm / height 2400 mm / weight 25 kg
- Optional Guide profile on or underneath bottom panel

”Design, material and function – it all needs to have class! This wardrobe not only looks amazing on the outside. With a push, the folding doors open and I can see absolutely everything inside.”
