

COMMERCIAL TILES FOR DOMESTIC, PUBLIC & SCHOOL POOLS

SERAPPOOL, the latest range of Commercial pool tiles suitable for Olympic, School and Domestic pools.

Serapool tile is dedicated to architectural design with materials that guarantee high technical performance and longevity. Made from porcelain, they are specifically designed to meet and exceed the technical requirements of Commercial Pools. Suitable for the smallest Residential pool right through to Olympic sized pools.

The **standard tile size is 125x250mm** and all accessories and special pieces are modular and interchangeable.

Key Benefits of Serapool Pool Tiles:

- **Serapool** tiles are **porcelain-bodied** so they are frost-proof and therefore suitable for internal AND external applications. The High quality and low water absorption of Serapool means it is ideally suited in locations where there are high summer and winter temperature variations.
- **Multiple as well as innovative Nosing options:** The **Serapool** range encompasses a huge range of tile textures, colours and finishes resulting in far more choice than with other Olympic pool sized tile and coping suppliers.
- Most tiles have **matching end corner pieces**, with or without a profiled lip on the underside.
- Conveniently, this range is **compatible** with most other pool supply products.
- The range **includes large tile sizes** available ranging up to 250 x 500mm.
- We have the **expertise in-house** at Tile Warehouse to manage the complexities of swimming pool design.
- **Hygiene:** because tiles have a lower susceptibility to mould, this means pools and surrounding areas are more hygienic.
- When installation is carried out correctly the results ensure **longevity** of the pool's hygiene and stability of product placement.
- **Maintenance:** is able to be carried out under water as opposed to other systems where pool needs to be closed and drained.
- **100% porcelain tile for long life and colour fastness.** Because they maintain both look and elegance after 5-10 years, unlike most other coverings, the lifecycle cost reduces considerably over time.

SELECTION TABLE

PRODUCT CODE	PRODUCT SIZE	PRODUCT DESCRIPTION	PRODUCT COLOUR	INITIAL QUANTITY	UNIT	IMAGE
20200	12.5x25cm	Petit Carre Antislip Tile	Unglazed	81,00	M ²

Tile Warehouse are the exclusive agents for Serapool in New Zealand and stock the commonly-requested colours of white, light and cobalt blue in size 125x250mm size as well as special accessories. As a result, repairs and smaller pools can be supplied from stock.

We work with New Zealand's Leading Pool Designers to assist in design and quantity requirements for all pools and surrounding areas. This ensures both design and quantification of materials required is accurate, with delivery planned to meet construction requirements.

Feedback from a Landscape Designer;

If you had to choose three words to describe, explain and recommend Serapool products, what three words would you choose? Answer:

“ Long-lasting, aesthetic and functional.”
