Operating Temperature: Recommended 50°C (122°F) at the mixer. Max 80°C (176°F).
Inlet Connections: All 1/2" BSP

IMPORTANT

Please read all of the instructions before installation

This mixer is designed for equal and unequal pressure systems.

This mixer is not recommended for use in uncontrolled heating systems such as wetbacks or solar heater units.

All pipework must be thoroughly flushed prior to the installation of the mixer. Inline filters must be fitted on both hot and cold supplies to prevent foreign particles damaging the ceramic cartridge.

Equal Low Pressure and
Equal High Pressure
(Mains) Installations

Remove flow restrictor
with suitable blunt instrument
