#PLEASE NOTE:

- Adhesives must be used in accordance with the adhesive manufacturer's instructions.
- High Risk areas are those exposed to broad changes in temperature, high humidity, direct heat/sunlight.
- Wet areas are those areas exposed to potential topical moisture such as 'splash zones' or continual free running water such as showers/ensuites.
- + LVT/P products are not suitable for use in areas subjected to continually wet conditions.
- For installation with acoustic underlay or similar types of specialist installation methods contact the underlay and or adhesive supplier directly.
- Failure to use the correct and recommended adhesive may void the product warranty, and proof of adhesive used should be retained as proof of correct adhesive.
